DETAILED ACTION

Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claims 1-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Yoshioka et al. (5677827) in view of Goto (D421244). With respect to claims 1-12, Yoshioka et al. teaches an information processing apparatus (10) comprising a body part (14), a display part (18); and a detachable battery part (26) comprising a housing part (32) including a at least one battery compartment to hold at least one battery (60A, 60B), an upper and lower surfaces, a curved configuration, and includes a first and second battery line housing parts as claimed (see for example figures 1-7 and column 2, line 38 through column 5, line 50). However, Yoshioka et al. lacks a teaching of the battery pack housing comprising a hollow as claimed. The battery of Goto is relied upon for its teaching of a battery pack housing comprising a hollow as claimed (see for example figures 1-14). It would have been obvious to one of ordinary skill in the art at the time the invention was made to incorporate the battery pack housing of Goto into the battery pack housing of Yoshioka et al. to make it more user friendly and ornamentally pleasing to the user.

Response to Arguments

3. Applicant's arguments with respect to claims 1-12 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Please note the teachings of Adam (4510215), Wada (D476949), Ogusawara (D448003), Kawa (D415466), Foster (5901035) and Oguchi et al. (6078496).

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of

the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from

the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date

of this final action and the advisory action is not mailed until after the end of the THREE-MONTH

shortened statutory period, then the shortened statutory period will expire on the date the advisory action

is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX

MONTHS from the date of this final action.
